Beauty needs in one place, My Salon Suites celebrates two years

Tired of schlepping all over for a manicure, somewhere else for a massage and a third place for a haircut? My Salon Suites in Delray Beach offers a one-stop shop for all types of beauty and health needs.

Located in Pineapple Grove, the building houses 37 suites that offer a variety of beauty and health services.

Delray resident Al Martell owns the building. He bought it two years ago and gutted the entire existing salon suits and built brand new suites with new furniture and a new feel.

“The building itself is a beautiful building,” he said. “It was ripe for a renovation.”

The suites accommodate massage therapists, manicurists, estheticians, hair stylists and other services. The building allows its tenants to make their own hours because it is equipped with a camera security system.

“We have been able to attract some of the top professionals in the area,” he said, adding having all types of services located in one place as the way the salon industry is moving in.
