MY SALON Suite Experience

Kristen | October 26, 2016

As my husband would say, I am a beauty junkie lol! I am a lover of new beauty products and also a lover of trying and experiencing anything to do with the beauty industry.

So when I was asked if I would go to MY SALON Suite and have one of the nail techs give me a mani and pedi, I was so excited and jumped at the opportunity to do so.

Lili my nail tech was an ABSOLUTE DREAM! To say my experience was the best is an understatement. She was the sweetest lady I have ever had the opportunity of meeting and working with. She made my experience so amazing and super comfortable. We talked about anything and everything, which I loved.

One thing Lili and I had in common was that we do not promote products we have not tried and loved our self. So after trying her high end mani and pedi I fell in love. She used the highest end OPI products on me (which I have been in love with ever sense my time in cosmo school). And her paint job was flawless. The design I had for my fingernails was a little challenging but she painted free hand and did exactly what I wanted.

At MY SALON Suite each tech there weather you're a Hair, Nail, Massage or Lash girl rents their own space (as in room) so you and your client get to have one on one time and relax and enjoy your experience. The establishment was very cleanly and very secure. Not just anyone can walk in to the suite area, you have to be buzzed in by your professional performing the service of your choosing. Which I loved it made the experience much more relaxing knowing strangers could not just be roaming the halls. This will definitely not be my last visit to MY SALON Suite. I see many more visits coming in the future.
