

Marco's Pizza coming to Sheboygan | Streetwise

February 21, 2019

SHEBOYGAN - Marco's Pizza is coming to Sheboygan next week. The pizza chain will be located at 2610 Calumet Drive across from Big Apple Bagels and next to Family Video.

Family Video's ownership team, Highland Ventures, LTD, which has operated the video store since 1996, will also own and operate the new Marco's Pizza location.

"Opening in Sheboygan is a perfect fit," said Zach McLaughlin, regional director of operations. "From the quality and value to the convenience of Marco's Pizza, we know our neighbors will love having Marco's Pizza so close by."

Highland Ventures, LTD, is Marco's Pizza's largest franchisee, owning and operating more than 120 locations. It also owns the Family Video brand and operates more than 700 stores.

The new restaurant coming to Sheboygan is part of a strategy to embed Marco's Pizza stores with Family Video locations, combining two of every neighborhood's pastimes – movies and pizza. As a result of bringing the two brands together in one location, Marco's Pizza will offer Sheboygan pizza and movies deliveries. The restaurant offers a variety of pizzas and subs using fresh, never frozen cheeses, dough made in store daily and premium meats and vegetables.

Marco's Pizza was founded 40 years ago in Oregon, Ohio, just outside of Toledo, by Pasquale "Pat" Giammarco who immigrated to the United States with his family at a young age. Giammarco spent his childhood working in his family's pizzeria, which became the impetus for Marco's Pizza.

This location will be the first in Sheboygan County. The store is slated to open Sunday, Feb. 24. For information on specific pizza offered or hours, go to www.marcos.com.
