OCTOBER 2020 – JANUARY 2021

Hi Maddy,
For 10 straight years, Wetzel's Pretzels has deliciously achieved positive year-over-year same-store sales.
Incredibly, despite the many challenges of 2020, Wetzel's is still winning. The brand has shown remarkable resiliency through the pandemic with revenues that consistently outperform others in the snack segment. Our fans simply can't get enough and our sales figures show it. We're thrilled to have driven comparable store sales increases of 8% at open locations in September.

Learn why Wetzel's Franchise Franchising is the perfect fit for your business and how it's time for you to bite into franchising with Wetzel's. Despite 2020 being 2020, we've put a twist on the pandemic and sales have soared.

"The lead nurturing campaigns developed by All Points have exceeded my expectations. My response rates have been very strong, and I'm currently in the final stages of a Las Vegas mall deal that was initiated from the email campaign 'A Decade of Dough Dominance.'"
